It should be noted that, as the Company has authorised capitalization of 5,000,000 shares, the Company will have to acquire shares from private purchases or public transactions or share exchange offers in order to honour its obligation to deliver these 239,679 shares. 9. INTEREST OF LARGE SHAREHOLDERS IN MATERIAL TRANSACTIONS WITH THE COMPANY:

Through the years, Rodney T. Cox and The Parmenides Group have guaranteed Company obligations without compensation and lent funds and securities to the Company without interest or any related fees being charged for these services. Dr. Cox and The Parmenides Group have also paid many Company bills without reimbursement and delivered gifts of shares to numerous people associated with the Company and its affiliated companies. The Company's previous U.S. accountant estimates that these direct cash and share payments, without any value being assigned to the guarantee services provided by The Parmenides Group and Rodney T. Cox, without compensation, to protect their investment in the Company and its affiliated companies, have totaled at least \$4 million over the past 27 years. In 2007, The Parmenides Group was paid for consulting services \$432,000, compared to \$432,000 in 2006. Since February of 2000, The Parmenides Group has been owned by The Jeremiah Toyam Cox Foundation Limited. Rodney T. Cox and other Cox family members have leased office space to the Company in the U.S. and England. In 2007, rents totaled approximately \$120,000 compared \$120,000 in 2006. In addition, the Company and its affiliated companies have been engaged in numerous transactions with the above parties, all of which in the opinion of Management and the Board of Directors have been in the best interest of the Company and its affiliated companies.

For 2007, the Directors or Foundations, totaling 25 separate entities, were paid a total of \$ 2,356,372 for services.

In previous years, members of the Executive Committee using The Parmenides Group as nominee agreed to lend to Borealis Technical Limited (which is a 98% owned subsidiary of Borealis Exploration Limited) common shares of Borealis Exploration Limited to be used in funding the operations of the Company. As of 31 March 2007, 123,490 remain to be delivered against the original number of shares loaned.

The market value of the shares borrowed and the 239,679 option exercise shares whose delivery has been deferred as of 31 March 2007 was approximately \$3,115,827 compared to \$3,115,827 for 2006. This obligation is marked to market. The Company is buying shares and doing share exchanges from private shareholders to cover this position. For the 12 month period ending 31 March 2007 a total of 13,607 shares were repurchased and delivered to The Parmenides Group. No demand for the delivery of the borrowed shares has been made and none is expected until it can be made in the normal course of business.

Borealis has entered into two long-term contracts with members of its technical staff, having 10-year periods with two 10-year renewals. Both of these contracts are in their second 10-year period, with one 10-year period remaining. The first

contract comes with substantial penalties if control of the Company should change. The penalty is a \$27 million cash payment, adjusted by inflation, to a Principal Scientist of the Company. The Company's policy, within the limits of its financial resources, is to offer all senior consultants' lifetime work with the Company and its affiliated companies, subject only to the consultant's continued satisfactory work for the Company and its affiliated companies, and the Company being able to afford the services provided.
